MATERIAL TESTED: Coarse Sand

The following table is a current statistical average of our Coarse sand.

<u>Sieve Number</u>	<u>Average Percent Passing</u>
3/8	100.0
4	96.6
8	89.2
16	78.8
30	57.5
50	8.4
100	0.3
Fineness Modulus	2.69

Pine Bluff Materials Company produces sand on the Ohio River near Smithland, Kentucky.

In addition to meeting the specifications of Kentucky, Tennessee, Alabama and Illinois Departments of Transportation, our sand meets ASTM C-33. Pine Bluffs' sand does not contain an excess of iron or alkali particles.

Please call me if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Mike Bohleber".
